INDEX TO VOLUME XXII

1940

SUBJECTS

Adjustments, war, for American agriculture, 369
Agriculture in the United States, 1839 and 1939, 98
Agriculture, how should it be financed? 138
Agriculture, stabilizing, 148
Agricultural census of 1940, 350
Agricultural economics, early history of, 84
Agricultural economics, nature and scope of training for men contemplating work in the field of, 52
Agricultural economist, needed additions to the theoretical equipment of an, 60
Agricultural labor and the Fair Labor Standards Act of 1938, 421
Agricultural planning, cooperative with county projects, 292
Agricultural planning, county, 691
Agricultural policy, 484
Agricultural policy, place of farmers, economists and administrators in developing, 1
Agricultural sampling, 341
Agricultural surpluses, 324
Agricultural surpluses and nutritional deficits, 317
Agricultural surpluses, use of, 324
Agronomy, contribution of, to land classification, 729
Allocation of milk supplies among contiguous markets, 215
American agriculture, war adjustments for, 369
Annual reports, 1939, 379
Application of analysis of co-variance to price-quality relationships of eggs, 440

British program for farm labor—as a contribution to American thinking on the subject, 715

Census, agricultural, of 1940, 350
Changing organization of agricultural markets, 162
Characteristics of poultry statistics, 359
Competition, limiting, in agricultural products, 241
Concept, normal value, use of, in stabilizing agriculture, 148
Conservation, time preference and, 533
Contribution of cooperation to the problem of distribution, 740
Contributions of soil science and agronomy to rural land classification, 729
Cooperation, offering of, toward solving problem of distribution, 740
Cotton, land, and people; a statement of the problem, 188
Country assembly of milk, 220
County planning for land-use adjustment, 473
County planning project—a cooperative approach to agricultural planning, 292
Co-variance, application of, to price-quality relationships of eggs, 440
Crop-yield index numbers, 701

Deficits, nutritional and agricultural surpluses, 317
Democratic telesis and county agricultural planning, 691
Desirable foreign trade policy for American agriculture, 430
Determining input-output relationships in milk production, 249
Developing agricultural policy, place of farmers, economists and administrators in, 1
Distribution, contribution of cooperation toward, 740
Dr. Schultz on farm management research, 570

Early history of agricultural economics, 84
Economic phases in soil erosion control, 613
Economic significance of changes in market organization, 173
Employment, gainful, finding of, for Southern population, 198
Erosion, program to control, 613
Export-dumping plans, 446

Fair Labor Standards Act of 1938, 421
Farm, foreclosure of mortgage on, 270
Farm labor, British program for, 715
Farm management research, 570, 753
Farming research, part-time, in the U.S.A., 581
Farming, supervised, 259
Financing, agriculture, 138
Foreclosed properties, how handled, 277

Foreclosures, when and under what conditions made, 270
Foreign trade policy for American agriculture, 430
Futures, trading in wheat and corn, and their relationship to price movements, 601

Gainful employment, how can Southern population find, 198
Government service as a career, in agricultural economics, 567
Great Plains, Southern, unit reorganization programs for, 264

Hamilton, J. M., notice of death, 830
History, early, of agricultural economics, 84
How can delinquent loans and foreclosed properties best be serviced and handled? 277
How can the Southern population find gainful employment? 198
How should agriculture be financed? 138

Industry, packing, market-sharing in, 225
Input-output, determining, relationships in milk production, 249

Labor, agricultural, and legislation, 421
Labor, farm, British program for, 715
Land classification, rural, 729
Land, cotton, and people, problem of southern states, 188
Land economic theory, needed points of development and reorientation in, 34
Land-use adjustment, county planning for, 473
Land valuation, role of soil depletion in, 460
Laws, state, limiting competition in agricultural products, 241
Loans, delinquent, servicing of, 277

Malnutrition, use of agricultural surpluses to reduce, 324
Market organization, economic significance of changes in, 173
Market-sharing in the packing industry, 225
Markets, agricultural, changing organization of, 162
Markets, contiguous, allocation of milk supplies among, 215
Memorial: Dr. Max Sering, 409
Memorial: Frederick Pattison Weaver, 829
Memorial: George Martin Petersen, 827
Memorial: Nils A. Olsen, 828
Milk production, input-output relationships in, 249
Milk, transportation and country assembly of, 220
Mortgage, farm, foreclosure, 270

National policy, what changes needed in, for South, 206
Nature and scope of training for men contemplating work in the field of agricultural economics, 52
Needed additions to the theoretical equipment of an agricultural economist, 60
Needed points of development and reorientation in land economic theory, 34
Needed points of development in reorientation in land economic theory (discussion), 46
New developments in agricultural sampling, 341
New developments in personnel selection, training and advancement in the Federal service, 67
News items, 528, 670, 818
Normal value concept, use of, in stabilizing agriculture, 148

Observations about recruitment and training of agricultural economists for government services, 415
Olsen, Nils A., Memorial of, 828
On agricultural policy, 484
Organization of agricultural markets, 162

Packing industry, market-sharing in, 225
Part-time farming research, 581
Personnel, agricultural economic, training and recruitment of, 558, 560, 562, 567
Personnel selection, new developments in, training and advancement in the Federal service, 67
Personnel, training and recruitment of, for field of agricultural economics, 78, 411, 418
Personnel, training of, for agricultural economics, 415
Petersen, George Martin, memorial of, 827
Place of farmers, economists and administrators in developing agricultural policy, 1
Planning, county, project, 292
Plans, export-dumping, 446
Policy, on agricultural, 484
Policy, national, for South, 206
Policy, resale, what elements enter desirable, 285
Poultry statistics, 359
Poverty in agriculture, problem of, 10

Preliminary program for the annual meeting, 831
Price analyses, wars, and depressions, 673
Price change, relation of, to trading in wheat and corn futures, 601
Price control, 680
Price control, war-time, in United Kingdom, 680
Price-quality relationships, application of co-variance to, 440
Problem of poverty in agriculture, 10
Problem of poverty in agriculture (discussion), 29, 31
Procedures which increase the usefulness of farm management research, 753
Programs for using agricultural surpluses to reduce malnutrition and to benefit farmers, 324
Publications received, 390, 498, 647, 780

Recruitment and training of personnel, 418
Reorganization, unit, program for Southern Great Plains, 264
Reports, annual, 1939, 379
Resale policy, elements entering, 285
Research, farm management, 570
Research, farming, part-time, 581
Role of soil depletion in land valuation, 460
Rural land classification, 729

Sampling, agricultural, new developments in, 341
Schedules, supply, long- and short-time, 544
Schultz, Dr., on farm management research, 570
Sering, Max, memorial of, 409
Soil depletion, role of, in land valuation, 460
Soil erosion control, economic phases, 613
Soil science, contribution of, to land classification, 729
South, changes needed in national policy for, 206
Southern Great Plains, unit reorganization program for, 264
Southern population, finding gainful employment for, 198
Southern states, problem of cotton, land and people, 188
Stabilizing agriculture, by use of normal value concept, 148
State laws which limit competition in agricultural products, 241
Statistics, poultry, characteristics of, 359
Supply schedules—"long-time" and "short-time," 544
Surpluses, agricultural, and malnutrition, 324
Surpluses, agricultural, and nutritional deficits, 317

Telesis, democratic, and county agricultural planning, 691
Time preference and conservation, 533
Trade, foreign, desirable, for American agriculture, 430
Trading in wheat and corn futures in relation to price movements, 601
Training and recruitment of agricultural economic personnel: a general view, 411
Training and recruitment of agricultural economic personnel: a training program, 558
Training and recruitment of agricultural economic personnel: an administrator's view, 562
Training and recruitment of agricultural economic personnel: for public service, 560
Training and recruitment of agricultural economic personnel: the civil servant, 415
Training and recruitment of agricultural economic personnel: the government service as a career, 567
Training and recruitment of agricultural economic personnel: the South, 418
Training, personnel and recruitment in agricultural economics, 78
Transportation and country assembly of milk, 220

Unit reorganization program for the Southern Great Plains, 264
United States, agriculture in, 1839 and 1939, 98
Use of the normal value concept as a stabilizing influence in agriculture, 148

Valuation, land, 460

War adjustments for American agriculture, 369
War-time price control in the United Kingdom, 680
Weaver, Frederick Pattison, memorial of, 829
What changes in national policy does the South need? 206
What elements enter into a desirable resale policy? 285
When and under what conditions should a mortgage on a farm be foreclosed? 270
